

**Charles Koch      David Koch**  
**The #19<sup>th</sup> Richest Men in the World**

### **WHO LOVES THE TEA PARTIERS?**

**THE KOCH BROS! And also Rupert Murdoch, Sarah Palin and Glenn Beck!**

The Koch Brothers provide the funding for the Tea Party Movement. That's why you see all the anti-tax signs at their rallies. Most Americans receive only a few dollars from such tax breaks, but the Koch's get plenty and many Wall Street corporations like Exxon paid no income tax to IRS last year. Their goal appears to be to use a few people like Glenn Beck and Sarah Palin to make chumps out of ordinary Americans. The opinionated pundits and Rupert Murdoch at Fox News, make millions from the anger and distress of Americans.

Speaking of Communists, the Koch brothers would not be able to afford to fund today's Tea Party sideshows if their Daddy had not helped Joe Stalin build the oil infrastructure for Communist Russia in the 1920's and 1930's.

Ordinary Americans should be carrying posters of the Koch's with Stalin mustaches—not Obama!

## **DON'T BE A TEA PARTY CHUMP!**

**The Republican leadership, Fox News, Sarah Palin, Rush Limbaugh and Glenn Beck are all appear to be using the Tea Party side-show and the gullibility of some Americans to get rich.**

The people who attend the Tea Party rallies are angry and rightly so. It just so happens that, thanks to propaganda paid for by the rich, they are angry at the wrong people. It is NOT "big government" who has sold us down the tubes. It is the "big business" of Wall Street—the very people who fund the Tea Party movement. 51 of the world's top 100 largest economies are not countries who have to answer to the people, but Wall Street pirates, many of whom don't pay a dime of taxes. These people want to direct the heat away from their own hinnies and the leadership of the Republican Party is supporting them in these efforts. That's why multimillionaires like Eric Cantor suggest to Americans that charity is the answer to healthcare if the ridiculous premiums of Wall Street Health Insurance Corporations are unaffordable. That's why multimillionaire Republicans like Chuck Grassley flat-out lied to his constituents about death panels being in the health care bill.

"Americans for Prosperity", a group that is owned and funded by the Koch Foundation, has bankrolled the Tea Party movement and even written many of the hate speeches that are presented speakers at these rallies. They are the ones who pay for the buses that take people to some of the larger rallies.

Timothy R. (Tim) Phillips is the president of *Americans for Prosperity*. Yes, *the man* that the Koch brothers hired to run the operation for them once worked for Jack Abramoff. In that role, Phillips generated conservative Christian outrage towards Indian casinos while at the same time Phillips and Reed were alleged to have helped launder lobbying money from an Abramoff Internet gambling client called eLottery. This is the person who now runs "Americans for Prosperity" the group bankrolling the Tea Parties—a person who is an expert at getting American people riled up over faux causes so the real culprits can rake in the dough.

# Got mustache like Joseph Stalin?

Those who follow after these people, should be required to wear one. The Koch brothers who are bankrolling the Tea Party movement with their "Americans for Prosperity" would not be able to afford it if their Daddy had not made billions from helping Joe Stalin set up the oil infrastructure for Communist Russia in the 1920's and 1930's.

Bachmann, Hannity, JOSEPH STALIN, Murdoch, Limbaugh

[They all approve of people who supported Communist Russia.]

**GOT MUSTACHE?**
